

## Do you want to know what you need to pay laid out clearly in black and white?

There is a single fee for either a content managed web site (PowerWeb Lite) or an eCommerce site complete

You order online and pay 25% down followed by three weekly payments.

You get

- Domain name registration with the .co.uk or .com name of your choice or if you want to register with 123-reg.co.uk we will point your hosting from there
- Redirection of all incoming mail to a mailbox of your choice
  
- One year of web hosting (after which the hosting fee is £100 per year).
- Either a Content Managed Website in ther design ordered or an eCommerce Shop in the design ordered - ready for you to put your text and information into.
- Our acclaimed Linda Geaves PowerWeb Lite or Shop-in-a-Box training DVDs explaining step-by-step exactly what you need to do.
  
- Your choice of telephone or email support on our 0870 034 5593 support line or through the email address given. This helps you with any little questions you have . In fairness to other customers this is limited to two hours, but it's unlikely that you'll need anything like that much.

PS: If you don't want to register a new domain name we'll transfer your existing domain from another co-operative service if you have the username and password. If your provider is unable to help with the transfer within 24 hours of your order we'll set your site up on an alternative domain name and you will be able to get your provider to point your domain to your new site later on.
